W001 • A familiar care greeting

Birth–5 months | Relationships & daily rhythm | Responsive care

Purpose

Make an everyday care transition understandable and reassuring.

Prepare

Familiar caregiver; the usual safe care space

Offer the experience

1. Notice whether the infant is awake and available.

2. Use the child’s name and a familiar gentle phrase before needed care.

3. Pause for a cue, respond and continue care sensitively.

Adult role

Stay responsive; the phrase supports connection rather than delaying care.

Notice and revisit

The cue, response and what seemed to support comfort. Next: Use the same helpful phrase at another care moment.

Safety and access

Follow approved care and positioning procedures; never delay food, comfort or needed care for a lesson.

Use home languages, signs, visual cues, adapted movement/tools and sufficient processing time. Watching or another comfortable response is participation; do not force touch, speech, singing or performance.

Share one actual strength or preference and ask what the family notices at home. Any suggested home connection is optional and needs no purchase.

W002 • Comfortable awake floor movement

Birth–5 months | Movement & sensory exploration | Voluntary sensory-motor play

Purpose

Offer voluntary movement without a required posture.

Prepare

Firm clear floor mat; adult within reach

Offer the experience

1. Choose a comfortable awake moment.

2. Offer a safe position and room for the infant’s own movement.

3. Respond to cues and reposition or stop as needed.

Adult role

Observe closely rather than placing the infant in a position they cannot manage.

Notice and revisit

Comfort, voluntary movement and support. Next: Repeat a comfortable opportunity when available.

Safety and access

Tummy time is awake and directly supervised only. For sleep use the approved firm flat clear surface on the back, following current health procedures. No loose play materials in the sleep space.

Use home languages, signs, visual cues, adapted movement/tools and sufficient processing time. Watching or another comfortable response is participation; do not force touch, speech, singing or performance.

Share one actual strength or preference and ask what the family notices at home. Any suggested home connection is optional and needs no purchase.

W003 • Watching a quiet useful action

Birth–5 months | Practical life & purposeful work | Shared everyday care

Purpose

Experience a familiar adult’s purposeful action within a warm relationship.

Prepare

Adult’s clean cloth; usual care setup

Offer the experience

1. Fold or prepare one cloth where the awake infant can comfortably notice.

2. Describe the real action in a few words.

3. Pause and follow the infant’s interest or need for care.

Adult role

The infant may look away; no imitation or task completion is expected.

Notice and revisit

Attention, withdrawal and adult timing. Next: Revisit the same calm real routine.

Safety and access

Adult controls the cloth; do not place loose fabric near the face or leave it in a sleep space.

Use home languages, signs, visual cues, adapted movement/tools and sufficient processing time. Watching or another comfortable response is participation; do not force touch, speech, singing or performance.

Share one actual strength or preference and ask what the family notices at home. Any suggested home connection is optional and needs no purchase.

W004 • A narrated care sequence

Birth–5 months | Practical life & purposeful work | Responsive care

Purpose

Participate through communication in real care.

Prepare

Usual approved care materials

Offer the experience

1. Tell the infant the next needed care action.

2. Pause for movement, expression or another cue.

3. Acknowledge the response and complete care gently.

Adult role

Read the infant’s cues and support comfort; do not turn care into a performance.

Notice and revisit

Signals and the adult support actually used. Next: Coordinate useful words and preferences with family.

Safety and access

Use approved hygiene and handling procedures; remain within reach and never leave an infant unattended on a raised surface.

Use home languages, signs, visual cues, adapted movement/tools and sufficient processing time. Watching or another comfortable response is participation; do not force touch, speech, singing or performance.

Share one actual strength or preference and ask what the family notices at home. Any suggested home connection is optional and needs no purchase.

W005 • A two-line care verse

Birth–5 months | Oral language, stories & verses | Oral language

Purpose

Hear a predictable language pattern paired with responsive care.

Prepare

Original verse or family-approved phrase

Offer the experience

1. Offer a short gentle phrase during an appropriate awake moment.

2. Pause rather than repeating without limit.

3. Respond to the infant’s cue and stop if needed.

Adult role

Use a natural voice and the family’s language when possible.

Notice and revisit

Response to voice and need for quieter interaction. Next: Repeat a preferred phrase later.

Safety and access

No required rhythmic body movement or delayed care; keep volume comfortable.

Use home languages, signs, visual cues, adapted movement/tools and sufficient processing time. Watching or another comfortable response is participation; do not force touch, speech, singing or performance.

Share one actual strength or preference and ask what the family notices at home. Any suggested home connection is optional and needs no purchase.

W006 • Listen, answer, wait

Birth–5 months | Oral language, stories & verses | Responsive conversation

Purpose

Experience a back-and-forth communication exchange.

Prepare

Familiar caregiver

Offer the experience

1. Listen for a sound, breath pattern, expression or movement.

2. Answer gently with a brief sound or phrase.

3. Wait and adapt to the next cue.

Adult role

Do not require eye contact or vocal imitation.

Notice and revisit

The sequence of infant cue, adult response and next cue. Next: Use the same responsive pattern in another routine.

Safety and access

Stop for fatigue or distress; unusual/persistent symptoms follow the program’s health process.

Use home languages, signs, visual cues, adapted movement/tools and sufficient processing time. Watching or another comfortable response is participation; do not force touch, speech, singing or performance.

Share one actual strength or preference and ask what the family notices at home. Any suggested home connection is optional and needs no purchase.

W007 • A familiar face and gesture

Birth–5 months | Imagination, play & social connection | Early social play

Purpose

Share a small playful exchange with an available adult.

Prepare

Adult face and hands at a comfortable distance

Offer the experience

1. Offer one gentle visible gesture.

2. Wait for any comfortable response.

3. Repeat or change only as the infant’s cue suggests.

Adult role

Keep the adult available; the infant need not imitate or pretend.

Notice and revisit

Interest and the child’s own form of participation. Next: Revisit a preferred gesture.

Safety and access

Never cover the infant’s face, startle, force touch or move their limbs to create a response.

Use home languages, signs, visual cues, adapted movement/tools and sufficient processing time. Watching or another comfortable response is participation; do not force touch, speech, singing or performance.

Share one actual strength or preference and ask what the family notices at home. Any suggested home connection is optional and needs no purchase.

W008 • A quiet humming invitation

Birth–5 months | Arts, music & handwork | Music and connection

Purpose

Experience sound and expression through a warm interaction.

Prepare

Caregiver humming a short original or family-approved tune

Offer the experience

1. Hum briefly at a low comfortable volume.

2. Pause to notice movement, expression or still attention.

3. Continue, change or stop responsively.

Adult role

The infant sets the pace through cues.

Notice and revisit

Comfort, sensory preference and adult responsiveness. Next: Revisit a familiar sound rather than adding many.

Safety and access

No loud sound, bouncing, shaking or forced movement.

Use home languages, signs, visual cues, adapted movement/tools and sufficient processing time. Watching or another comfortable response is participation; do not force touch, speech, singing or performance.

Share one actual strength or preference and ask what the family notices at home. Any suggested home connection is optional and needs no purchase.

W009 • One simple image together

Birth–5 months | Arts, music & handwork | Visual exploration

Purpose

Share a visual interest without a naming test.

Prepare

Large sturdy infant-safe book held by an adult

Offer the experience

1. Offer one simple image in comfortable light.

2. Describe what appears to interest the infant.

3. Allow looking away or ending the interaction.

Adult role

Follow attention instead of testing recognition.

Notice and revisit

Preferred viewing distance and communication. Next: Return to a familiar page later.

Safety and access

Adult holds the book safely; no detachable pieces, glare or objects above a sleep space.

Use home languages, signs, visual cues, adapted movement/tools and sufficient processing time. Watching or another comfortable response is participation; do not force touch, speech, singing or performance.

Share one actual strength or preference and ask what the family notices at home. Any suggested home connection is optional and needs no purchase.

W010 • Noticing an ordinary outdoor sound

Birth–5 months | Nature, seasons & community | Nature noticing

Purpose

Experience local surroundings within safe comfortable care.

Prepare

Safe sheltered access to the outdoors or open view; adult

Offer the experience

1. Check conditions and the individual care plan.

2. Pause with the infant in a comfortable protected position.

3. Name a gentle sound or sight and respond to cues.

Adult role

A brief familiar experience is enough.

Notice and revisit

Comfort and what drew attention. Next: Return to the same safe place.

Safety and access

Follow weather, temperature, air-quality and sun guidance. No direct sun viewing, unknown plant contact or unsafe outdoor positioning.

Use home languages, signs, visual cues, adapted movement/tools and sufficient processing time. Watching or another comfortable response is participation; do not force touch, speech, singing or performance.

Share one actual strength or preference and ask what the family notices at home. Any suggested home connection is optional and needs no purchase.

W011 • Explore and return

6–11 months | Relationships & daily rhythm | Responsive exploration

Purpose

Support exploration while connection remains available.

Prepare

Safe floor space; familiar nearby adult

Offer the experience

1. Offer an accessible familiar space.

2. Follow self-chosen exploration.

3. Respond promptly when the infant checks back or needs comfort.

Adult role

Remain a secure available presence.

Notice and revisit

Movement, reconnecting and help used. Next: Repeat in a familiar space.

Safety and access

No forced standing/walking, walkers, unstable supports or unsafe climbing.

Use home languages, signs, visual cues, adapted movement/tools and sufficient processing time. Watching or another comfortable response is participation; do not force touch, speech, singing or performance.

Share one actual strength or preference and ask what the family notices at home. Any suggested home connection is optional and needs no purchase.

W012 • Travel toward a chosen interest

6–11 months | Movement & sensory exploration | Voluntary movement

Purpose

Explore the infant’s own movement strategy.

Prepare

Large inspected infant-safe object; clear floor

Offer the experience

1. Place a safe interest within an achievable range.

2. Wait for reaching, rolling or another voluntary action.

3. Adjust distance or access without demanding a milestone.

Adult role

Support comfort and agency rather than training a standard movement.

Notice and revisit

Strategy and how the environment helped. Next: Offer a similar safe route.

Safety and access

Do not pull the infant by the arms, force a posture or use food as a movement lure.

Use home languages, signs, visual cues, adapted movement/tools and sufficient processing time. Watching or another comfortable response is participation; do not force touch, speech, singing or performance.

Share one actual strength or preference and ask what the family notices at home. Any suggested home connection is optional and needs no purchase.

W013 • Folding nearby, noticing together

6–11 months | Practical life & purposeful work | Imitation foundation

Purpose

Share the rhythm of a real useful action.

Prepare

Clean cloth controlled by adult

Offer the experience

1. Fold a cloth within comfortable view.

2. Offer a few meaningful words and a pause.

3. Let the infant explore through looking or a supported voluntary touch.

Adult role

No folding ability is expected.

Notice and revisit

Interest and sensory access. Next: Repeat a familiar action.

Safety and access

Keep cloth adult-controlled and remove it afterward; no loose fabric over the face or in sleep space.

Use home languages, signs, visual cues, adapted movement/tools and sufficient processing time. Watching or another comfortable response is participation; do not force touch, speech, singing or performance.

Share one actual strength or preference and ask what the family notices at home. Any suggested home connection is optional and needs no purchase.

W014 • An object belongs in its place

6–11 months | Practical life & purposeful work | Purposeful exploration

Purpose

Explore placing, releasing and restoring.

Prepare

Large infant-safe object; low stable open container

Offer the experience

1. Show one object going into the container.

2. Offer the child a turn without requiring copying.

3. Follow putting in, taking out or another safe action.

Adult role

Name real actions and leave room for repetition.

Notice and revisit

Grasp/release, persistence and chosen action. Next: Try a wider opening if useful.

Safety and access

No small parts, bags, tight lids or containers that can entrap fingers or cover the head.

Use home languages, signs, visual cues, adapted movement/tools and sufficient processing time. Watching or another comfortable response is participation; do not force touch, speech, singing or performance.

Share one actual strength or preference and ask what the family notices at home. Any suggested home connection is optional and needs no purchase.

W015 • Names in the real moment

6–11 months | Oral language, stories & verses | Oral language

Purpose

Connect language with a shared interest.

Prepare

Familiar safe object

Offer the experience

1. Follow the infant’s interest.

2. Offer the object’s familiar name or sign.

3. Pause and answer any response.

Adult role

Use family words and accept all communication forms.

Notice and revisit

Shared attention and response. Next: Use the same name during real use.

Safety and access

Objects must be intact and suitable for mouthing risk; no detachable parts.

Use home languages, signs, visual cues, adapted movement/tools and sufficient processing time. Watching or another comfortable response is participation; do not force touch, speech, singing or performance.

Share one actual strength or preference and ask what the family notices at home. Any suggested home connection is optional and needs no purchase.

W016 • A repeated gesture verse

6–11 months | Oral language, stories & verses | Gesture and language

Purpose

Enjoy a predictable language-and-gesture exchange.

Prepare

Short original verse; adult gestures

Offer the experience

1. Offer a brief verse with one visible gesture.

2. Pause at a familiar place.

3. Accept looking, movement, sound or no response.

Adult role

Do not move the infant’s body to make them join.

Notice and revisit

Anticipation and participation choice. Next: Repeat a favored phrase.

Safety and access

Keep gestures gentle and volume comfortable; no required touch or hand holding.

Use home languages, signs, visual cues, adapted movement/tools and sufficient processing time. Watching or another comfortable response is participation; do not force touch, speech, singing or performance.

Share one actual strength or preference and ask what the family notices at home. Any suggested home connection is optional and needs no purchase.

W017 • A partly hidden familiar object

6–11 months | Imagination, play & social connection | Early object play

Purpose

Explore a familiar object that remains partly visible.

Prepare

Large safe object; small cloth held by adult

Offer the experience

1. Show the object clearly.

2. Cover only part and wait.

3. Reveal together if wanted and allow repetition.

Adult role

Keep the experience playful, not a memory test.

Notice and revisit

Looking, reaching and response to the reveal. Next: Change how much remains visible only if comfortable.

Safety and access

Adult controls the cloth; never cover the child’s face or leave cloth in sleep space.

Use home languages, signs, visual cues, adapted movement/tools and sufficient processing time. Watching or another comfortable response is participation; do not force touch, speech, singing or performance.

Share one actual strength or preference and ask what the family notices at home. Any suggested home connection is optional and needs no purchase.

W018 • Echo a sound idea

6–11 months | Arts, music & handwork | Music and expression

Purpose

Express a sound and hear it acknowledged.

Prepare

Familiar caregiver; quiet space

Offer the experience

1. Listen for a comfortable child sound.

2. Echo it gently.

3. Pause for a new response or a wish to stop.

Adult role

Treat the exchange as expression, not pronunciation practice.

Notice and revisit

Initiation and changes in the exchange. Next: Use the sound in a familiar song.

Safety and access

No loud repetition or pressure to vocalize.

Use home languages, signs, visual cues, adapted movement/tools and sufficient processing time. Watching or another comfortable response is participation; do not force touch, speech, singing or performance.

Share one actual strength or preference and ask what the family notices at home. Any suggested home connection is optional and needs no purchase.

W019 • Two large safe sensory choices

6–11 months | Arts, music & handwork | Sensory expression

Purpose

Choose a sensory experience and communicate preference.

Prepare

Two large inspected infant-safe objects with comfortable surfaces

Offer the experience

1. Offer one object at a time, then a readable choice.

2. Notice a reach, look or other preference.

3. Honor the choice and allow exploration.

Adult role

Aesthetic simplicity is not more important than access or interest.

Notice and revisit

Choice, sensory comfort and adult interpretation. Next: Revisit the preferred material.

Safety and access

Natural materials are not automatically safe. No loose fibers, splinters, nuts, seeds, magnets, small batteries or detachable pieces.

Use home languages, signs, visual cues, adapted movement/tools and sufficient processing time. Watching or another comfortable response is participation; do not force touch, speech, singing or performance.

Share one actual strength or preference and ask what the family notices at home. Any suggested home connection is optional and needs no purchase.

W020 • A familiar outdoor pause

6–11 months | Nature, seasons & community | Nature noticing

Purpose

Notice the local world through repeated safe visits.

Prepare

Protected safe outdoor area; familiar adult

Offer the experience

1. Check conditions and access.

2. Pause near a safe familiar feature.

3. Follow interest in light, leaves at a distance or gentle sound.

Adult role

Describe actual observations without requiring labels.

Notice and revisit

Comfort and the child’s noticed interest. Next: Return to see what is similar.

Safety and access

Follow outdoor safety procedures; no direct sun, wildlife handling or unknown plant tasting.

Use home languages, signs, visual cues, adapted movement/tools and sufficient processing time. Watching or another comfortable response is participation; do not force touch, speech, singing or performance.

Share one actual strength or preference and ask what the family notices at home. Any suggested home connection is optional and needs no purchase.

W021 • A predictable arrival invitation

12–23 months | Relationships & daily rhythm | Daily rhythm

Purpose

Feel secure during a transition.

Prepare

Family-agreed greeting; known play choice

Offer the experience

1. Receive family information.

2. Offer familiar connection and a known play option.

3. Stay responsive and note what helped.

Adult role

Comfort remains available; calm is not a condition for entry.

Notice and revisit

Transition cues and helpful support. Next: Keep the useful parts of the ritual.

Safety and access

Follow authorized handoff procedures; learning notes do not replace required records.

Use home languages, signs, visual cues, adapted movement/tools and sufficient processing time. Watching or another comfortable response is participation; do not force touch, speech, singing or performance.

Share one actual strength or preference and ask what the family notices at home. Any suggested home connection is optional and needs no purchase.

W022 • Carry a light useful object

12–23 months | Movement & sensory exploration | Purposeful movement

Purpose

Coordinate movement for a real purpose.

Prepare

Large light safe object; clear short route

Offer the experience

1. Show a safe destination.

2. Invite carrying using an accessible method.

3. Support placing and returning.

Adult role

Adjust weight, distance and grip to the child.

Notice and revisit

Balance, purpose and support. Next: Offer another useful carry when wanted.

Safety and access

No heavy loads, stairs, fragile objects or speed pressure.

Use home languages, signs, visual cues, adapted movement/tools and sufficient processing time. Watching or another comfortable response is participation; do not force touch, speech, singing or performance.

Share one actual strength or preference and ask what the family notices at home. Any suggested home connection is optional and needs no purchase.

W023 • Wipe beside a familiar adult

12–23 months | Practical life & purposeful work | Imitation and work

Purpose

Participate in useful room care.

Prepare

Clean cloth; tiny safe spill on tray

Offer the experience

1. Notice the spill without blame.

2. Show one wiping action.

3. Let the child help and restore together.

Adult role

Join real work without demanding perfection.

Notice and revisit

Chosen action and amount of help. Next: Use the same routine again.

Safety and access

Adults handle chemicals, bodily fluids, broken glass and hazardous spills; dry floors promptly.

Use home languages, signs, visual cues, adapted movement/tools and sufficient processing time. Watching or another comfortable response is participation; do not force touch, speech, singing or performance.

Share one actual strength or preference and ask what the family notices at home. Any suggested home connection is optional and needs no purchase.

W024 • Return cloths to a basket

12–23 months | Practical life & purposeful work | Imitation and work

Purpose

Explore a simple shared restoration sequence.

Prepare

Clean small cloths; stable open basket

Offer the experience

1. Fold or gather one cloth visibly.

2. Invite placing it in the basket.

3. Continue only while useful and welcome.

Adult role

Accept the child’s own manageable action.

Notice and revisit

Imitation, purpose and completion with support. Next: Invite one familiar care contribution.

Safety and access

No bags, cords, neck loops or fabric over faces; no loose cloth in infant sleep areas.

Use home languages, signs, visual cues, adapted movement/tools and sufficient processing time. Watching or another comfortable response is participation; do not force touch, speech, singing or performance.

Share one actual strength or preference and ask what the family notices at home. Any suggested home connection is optional and needs no purchase.

W025 • A verse for putting away

12–23 months | Oral language, stories & verses | Language in rhythm

Purpose

Make a transition readable through warm language.

Prepare

Original short verse; familiar materials

Offer the experience

1. Give a clear practical cue.

2. Offer the short phrase while putting one item away.

3. Pause and support one useful action.

Adult role

The song accompanies support; it does not replace a clear request.

Notice and revisit

Comprehension and participation. Next: Use the same phrase in the same situation.

Safety and access

No forced singing or withholding care until cleanup is complete.

Use home languages, signs, visual cues, adapted movement/tools and sufficient processing time. Watching or another comfortable response is participation; do not force touch, speech, singing or performance.

Share one actual strength or preference and ask what the family notices at home. Any suggested home connection is optional and needs no purchase.

W026 • A very short real-life story

12–23 months | Oral language, stories & verses | Oral storytelling

Purpose

Share a meaningful event in simple language.

Prepare

One large safe familiar object; adult storyteller

Offer the experience

1. Name a familiar action, such as a cup being washed.

2. Tell two or three connected sentences.

3. Pause for the child’s gesture, sound or idea.

Adult role

Follow meaning rather than asking recall questions.

Notice and revisit

Understanding shown in any form. Next: Retell with a family word.

Safety and access

No small props, required sitting or forced performance.

Use home languages, signs, visual cues, adapted movement/tools and sufficient processing time. Watching or another comfortable response is participation; do not force touch, speech, singing or performance.

Share one actual strength or preference and ask what the family notices at home. Any suggested home connection is optional and needs no purchase.

W027 • Caring for a simple doll

12–23 months | Imagination, play & social connection | Early pretend play

Purpose

Represent a familiar care idea without a prescribed family role.

Prepare

Large safe washable doll; open pretend-care space

Offer the experience

1. Offer the doll and notice the child’s action.

2. Join one caring action if invited.

3. Use family language and allow changes.

Adult role

Children choose roles; all family structures belong.

Notice and revisit

Symbolic action, gentleness and the child’s meaning. Next: Offer one safe family-suggested prop.

Safety and access

No detachable pieces, ties, long strings or unsafe sleep demonstrations; supervise props.

Use home languages, signs, visual cues, adapted movement/tools and sufficient processing time. Watching or another comfortable response is participation; do not force touch, speech, singing or performance.

Share one actual strength or preference and ask what the family notices at home. Any suggested home connection is optional and needs no purchase.

W028 • Large crayon movements

12–23 months | Arts, music & handwork | Drawing

Purpose

Explore marks through voluntary movement.

Prepare

Non-toxic large drawing tool; fixed paper

Offer the experience

1. Show safe tool use.

2. Offer a comfortable choice of marks.

3. Describe the process without naming a required picture.

Adult role

The child owns the image and may stop.

Notice and revisit

Tool access and original choices. Next: Offer another comfortable drawing surface.

Safety and access

Supervise mouthing and breakage risks; no small caps or loose pieces.

Use home languages, signs, visual cues, adapted movement/tools and sufficient processing time. Watching or another comfortable response is participation; do not force touch, speech, singing or performance.

Share one actual strength or preference and ask what the family notices at home. Any suggested home connection is optional and needs no purchase.

W029 • A familiar song with chosen movement

12–23 months | Arts, music & handwork | Song and movement

Purpose

Express a musical response through comfortable movement or watching.

Prepare

Adult voice; clear safe space

Offer the experience

1. Sing a short familiar phrase.

2. Allow a self-chosen response.

3. Pause and follow the wish to continue or stop.

Adult role

Offer seated, still, sign or visual participation.

Notice and revisit

Choice, engagement and comfort. Next: Repeat a preferred song.

Safety and access

No forced standing, swinging, shaking or loud sound.

Use home languages, signs, visual cues, adapted movement/tools and sufficient processing time. Watching or another comfortable response is participation; do not force touch, speech, singing or performance.

Share one actual strength or preference and ask what the family notices at home. Any suggested home connection is optional and needs no purchase.

W030 • Watching one familiar plant

12–23 months | Nature, seasons & community | Nature care

Purpose

Notice a living thing over repeated visits.

Prepare

Safe non-toxic plant out of mouthing reach

Offer the experience

1. Pause near the plant.

2. Describe a visible leaf or change.

3. Offer a real care action only if safe and appropriate.

Adult role

Keep observation simple and concrete.

Notice and revisit

What the child notices or communicates. Next: Return to the same plant.

Safety and access

Adult selects plants, checks allergies and controls soil/water/tools; no tasting unknown plants.

Use home languages, signs, visual cues, adapted movement/tools and sufficient processing time. Watching or another comfortable response is participation; do not force touch, speech, singing or performance.

Share one actual strength or preference and ask what the family notices at home. Any suggested home connection is optional and needs no purchase.

W031 • A small repeated welcome

24–35 months | Relationships & daily rhythm | Daily rhythm

Purpose

Support a predictable but responsive start.

Prepare

Familiar greeting; visual or real next-step cue

Offer the experience

1. Welcome the child and family.

2. Name a familiar next choice.

3. Give processing time and help with transition.

Adult role

Keep rhythm flexible when care or access needs change.

Notice and revisit

Useful cues and the child’s choice. Next: Repeat what helped.

Safety and access

No required eye contact, hand holding, silence or immediate separation.

Use home languages, signs, visual cues, adapted movement/tools and sufficient processing time. Watching or another comfortable response is participation; do not force touch, speech, singing or performance.

Share one actual strength or preference and ask what the family notices at home. Any suggested home connection is optional and needs no purchase.

W032 • Walk a gentle imagined path

24–35 months | Movement & sensory exploration | Movement play

Purpose

Explore movement with an optional story image.

Prepare

Clear accessible route; low safe markers

Offer the experience

1. Describe a simple path around a pretend puddle.

2. Model an accessible safe action.

3. Let the child choose how to travel.

Adult role

A seated or mobility-device route is equally valid.

Notice and revisit

Planning, enjoyment and needed support. Next: Let the child move a safe marker.

Safety and access

No heights, speed races, blindfolding or unstable climbing.

Use home languages, signs, visual cues, adapted movement/tools and sufficient processing time. Watching or another comfortable response is participation; do not force touch, speech, singing or performance.

Share one actual strength or preference and ask what the family notices at home. Any suggested home connection is optional and needs no purchase.

W033 • Brush crumbs into a pan

24–35 months | Practical life & purposeful work | Imitation and work

Purpose

Take part in purposeful cleanup.

Prepare

Child-sized safe brush and pan; safe dry debris

Offer the experience

1. Notice the real need.

2. Show one controlled sweep.

3. Help gather and restore the tools.

Adult role

Work together without turning a mistake into shame.

Notice and revisit

Tool use, purpose and restoration. Next: Offer the same task at a natural time.

Safety and access

Adults handle sharp, contaminated, chemical or hazardous debris.

Use home languages, signs, visual cues, adapted movement/tools and sufficient processing time. Watching or another comfortable response is participation; do not force touch, speech, singing or performance.

Share one actual strength or preference and ask what the family notices at home. Any suggested home connection is optional and needs no purchase.

W034 • Prepare the bread-day table

24–35 months | Practical life & purposeful work | Food preparation rhythm

Purpose

Participate in a real preparation routine.

Prepare

Clean cloth; large safe bowl; adult-approved setup

Offer the experience

1. Wash hands according to program procedure.

2. Invite carrying a safe bowl or placing a cloth.

3. Watch the adult’s next real step and help restore afterward.

Adult role

The child need not handle dough, flour or heat to participate.

Notice and revisit

Useful action and understanding of the sequence. Next: Repeat a comfortable role next time.

Safety and access

Adult manages recipe, allergies, raw flour/egg risks and all heat. No raw tasting or unsupervised food/tool access.

Use home languages, signs, visual cues, adapted movement/tools and sufficient processing time. Watching or another comfortable response is participation; do not force touch, speech, singing or performance.

Share one actual strength or preference and ask what the family notices at home. Any suggested home connection is optional and needs no purchase.

W035 • A short gesture rhyme

24–35 months | Oral language, stories & verses | Gesture verse

Purpose

Enjoy repeated language and expressive choices.

Prepare

Original verse; optional adult gesture

Offer the experience

1. Offer a short familiar phrase.

2. Add one comfortable gesture.

3. Accept a different response or watching.

Adult role

Do not turn the verse into a copying test.

Notice and revisit

Communication and anticipation. Next: Use a child-chosen word or gesture.

Safety and access

No compulsory circle participation, touch or physical manipulation.

Use home languages, signs, visual cues, adapted movement/tools and sufficient processing time. Watching or another comfortable response is participation; do not force touch, speech, singing or performance.

Share one actual strength or preference and ask what the family notices at home. Any suggested home connection is optional and needs no purchase.

W036 • A tiny tabletop tale

24–35 months | Oral language, stories & verses | Oral story play

Purpose

Follow a short sequence through objects and language.

Prepare

Large adult-controlled safe figures; uncluttered surface

Offer the experience

1. Introduce one character and a familiar action.

2. Tell a brief beginning and change.

3. End gently and allow the child’s own version afterward.

Adult role

Use minimal props and language suited to actual access.

Notice and revisit

Story meaning and child-authored additions. Next: Retell the same tale another day.

Safety and access

No small detachable props, strings, candles or frightening surprise effects.

Use home languages, signs, visual cues, adapted movement/tools and sufficient processing time. Watching or another comfortable response is participation; do not force touch, speech, singing or performance.

Share one actual strength or preference and ask what the family notices at home. Any suggested home connection is optional and needs no purchase.

W037 • Two nearby pretend homes

24–35 months | Imagination, play & social connection | Pretend and peer play

Purpose

Support parallel and emerging shared play without forced sharing.

Prepare

Duplicate large safe props; accessible space

Offer the experience

1. Prepare enough usable materials.

2. Describe each child’s idea if helpful.

3. Support a request or boundary and allow separate play.

Adult role

Togetherness is an invitation, not a developmental demand.

Notice and revisit

Peer interest, communication and support. Next: Offer a joint action only if both want it.

Safety and access

No stereotypes or exclusion; adults stop harm and supervise props.

Use home languages, signs, visual cues, adapted movement/tools and sufficient processing time. Watching or another comfortable response is participation; do not force touch, speech, singing or performance.

Share one actual strength or preference and ask what the family notices at home. Any suggested home connection is optional and needs no purchase.

W038 • Color across a big page

24–35 months | Arts, music & handwork | Drawing

Purpose

Make original expressive choices.

Prepare

Non-toxic large crayons; fixed paper

Offer the experience

1. Show safe use and restoration.

2. Offer an accessible drawing position.

3. Let the child choose marks and whether to talk about them.

Adult role

Avoid interpreting the picture as a diagnosis or a required scene.

Notice and revisit

Movement and the child’s own meaning. Next: Keep a favored tool available.

Safety and access

Check mouthing/breakage risks and provide direct supervision.

Use home languages, signs, visual cues, adapted movement/tools and sufficient processing time. Watching or another comfortable response is participation; do not force touch, speech, singing or performance.

Share one actual strength or preference and ask what the family notices at home. Any suggested home connection is optional and needs no purchase.

W039 • Modeling through pressing and rolling

24–35 months | Arts, music & handwork | Modeling

Purpose

Explore a material through self-chosen action.

Prepare

Approved non-toxic modeling material; blunt safe tools if appropriate

Offer the experience

1. Offer only after reviewing sensory and mouthing access.

2. Show one optional press or roll.

3. Allow exploration, an alternative material or watching.

Adult role

No required product or forced messy contact.

Notice and revisit

Hand action, preference and chosen form. Next: Revisit a comfortable action.

Safety and access

Check ingredients, allergies and ingestion risks; do not use raw food dough as a tasting material. Select an alternative when mouthing makes this unsuitable.

Use home languages, signs, visual cues, adapted movement/tools and sufficient processing time. Watching or another comfortable response is participation; do not force touch, speech, singing or performance.

Share one actual strength or preference and ask what the family notices at home. Any suggested home connection is optional and needs no purchase.

W040 • A short repeated nature route

24–35 months | Nature, seasons & community | Nature rhythm

Purpose

Notice local changes through familiarity.

Prepare

Safe accessible outdoor route

Offer the experience

1. Review conditions and boundaries.

2. Pause where the child notices something safe.

3. Use a simple description and revisit later.

Adult role

The walk need not become a fact quiz.

Notice and revisit

Interest, movement and communication. Next: Return to the same feature.

Safety and access

Follow weather/sun/air guidance; no unknown plant tasting, wildlife handling or collecting small hazardous objects.

Use home languages, signs, visual cues, adapted movement/tools and sufficient processing time. Watching or another comfortable response is participation; do not force touch, speech, singing or performance.

Share one actual strength or preference and ask what the family notices at home. Any suggested home connection is optional and needs no purchase.

W041 • Help the room begin and end

3 years · 36–47 months | Relationships & daily rhythm | Daily rhythm

Purpose

Participate in predictable useful routines with support.

Prepare

Familiar materials; accessible restoration places

Offer the experience

1. Name a real beginning or ending task.

2. Demonstrate one manageable action.

3. Allow a contribution and help complete what remains.

Adult role

Belonging and care do not depend on perfect cleanup.

Notice and revisit

Purpose, agency and actual support. Next: Keep a meaningful helper role available.

Safety and access

No punishment chores, heavy loads or unsafe cleaning products.

Use home languages, signs, visual cues, adapted movement/tools and sufficient processing time. Watching or another comfortable response is participation; do not force touch, speech, singing or performance.

Share one actual strength or preference and ask what the family notices at home. Any suggested home connection is optional and needs no purchase.

W042 • A story-led movement invitation

3 years · 36–47 months | Movement & sensory exploration | Movement and imagination

Purpose

Explore movement, imagination and space.

Prepare

Clear space; original short nature image

Offer the experience

1. Offer a brief image such as walking around a fallen branch.

2. Show a safe optional movement.

3. Invite children’s own accessible responses.

Adult role

Let children watch or choose another movement.

Notice and revisit

Body planning and expressive choices. Next: Use a child’s idea in the next invitation.

Safety and access

No forced balance, blindfolds, heights or running into others.

Use home languages, signs, visual cues, adapted movement/tools and sufficient processing time. Watching or another comfortable response is participation; do not force touch, speech, singing or performance.

Share one actual strength or preference and ask what the family notices at home. Any suggested home connection is optional and needs no purchase.

W043 • Wash and fold a small cloth

3 years · 36–47 months | Practical life & purposeful work | Purposeful work

Purpose

Complete a purposeful care sequence with help.

Prepare

Small basin; safe water amount; cloth; drying place

Offer the experience

1. Prepare a safe clean work area.

2. Wash or rinse the cloth and fold when appropriate.

3. Restore materials and observe the real result.

Adult role

Model slowly, then offer only needed help.

Notice and revisit

Sequence, water control and restoration. Next: Repeat the same useful work.

Safety and access

Adult checks hygiene; no disinfectants or hot water. Empty water and dry floors promptly.

Use home languages, signs, visual cues, adapted movement/tools and sufficient processing time. Watching or another comfortable response is participation; do not force touch, speech, singing or performance.

Share one actual strength or preference and ask what the family notices at home. Any suggested home connection is optional and needs no purchase.

W044 • Set a simple snack place

3 years · 36–47 months | Practical life & purposeful work | Practical mathematics

Purpose

Use practical sequence and real quantity in shared care.

Prepare

Approved clean cups/plates; safe table

Offer the experience

1. Identify who needs a place.

2. Match one appropriate item to each person.

3. Check together and help restore after the meal.

Adult role

Let the useful task carry counting and language naturally.

Notice and revisit

Matching, sequence and support. Next: Adjust a real group size when meaningful.

Safety and access

Follow food/allergy/hygiene procedures and use safe nonfragile items.

Use home languages, signs, visual cues, adapted movement/tools and sufficient processing time. Watching or another comfortable response is participation; do not force touch, speech, singing or performance.

Share one actual strength or preference and ask what the family notices at home. Any suggested home connection is optional and needs no purchase.

W045 • A repeated short nature tale

3 years · 36–47 months | Oral language, stories & verses | Oral storytelling

Purpose

Build meaning and anticipation through oral storytelling.

Prepare

Original age-appropriate story; optional large safe props

Offer the experience

1. Tell a short gentle story clearly.

2. Retell across days if interest remains.

3. Invite voluntary retelling, movement or a new ending.

Adult role

Keep rich oral language without constant recall questions.

Notice and revisit

Understanding and child-created meaning. Next: Revisit a child’s question in later play.

Safety and access

No frightening coercive tales, forced performance, small props or real flames.

Use home languages, signs, visual cues, adapted movement/tools and sufficient processing time. Watching or another comfortable response is participation; do not force touch, speech, singing or performance.

Share one actual strength or preference and ask what the family notices at home. Any suggested home connection is optional and needs no purchase.

W046 • A verse for a real transition

3 years · 36–47 months | Oral language, stories & verses | Language in rhythm

Purpose

Make a familiar transition readable through rhythm.

Prepare

Short original verse; practical cue

Offer the experience

1. Tell children the actual next step.

2. Use the verse while modeling one useful action.

3. Pause and support access or strong feelings.

Adult role

Language and predictable help work together.

Notice and revisit

Which cue helped and what support was needed. Next: Keep the useful phrase and adapt when it stops helping.

Safety and access

Do not require singing, silence, hand holding or completion before food/comfort.

Use home languages, signs, visual cues, adapted movement/tools and sufficient processing time. Watching or another comfortable response is participation; do not force touch, speech, singing or performance.

Share one actual strength or preference and ask what the family notices at home. Any suggested home connection is optional and needs no purchase.

W047 • A cloth becomes a landscape

3 years · 36–47 months | Imagination, play & social connection | Imaginative play

Purpose

Support symbolic ideas and child-owned stories.

Prepare

Large safe cloths; large blocks; open space

Offer the experience

1. Offer a few safe open-ended materials.

2. Notice what the child decides they represent.

3. Join a role only if invited and allow the story to change.

Adult role

Do not supply the one correct imaginative use.

Notice and revisit

Representation, language and collaboration. Next: Offer a drawing surface if the story needs a sign.

Safety and access

Supervise large cloths; no face covering, body tying, neck loops, enclosed entrapment or shared access by infants.

Use home languages, signs, visual cues, adapted movement/tools and sufficient processing time. Watching or another comfortable response is participation; do not force touch, speech, singing or performance.

Share one actual strength or preference and ask what the family notices at home. Any suggested home connection is optional and needs no purchase.

W048 • A first wet-on-wet color exploration

3 years · 36–47 months | Arts, music & handwork | Watercolor

Purpose

Explore how color moves without a copied picture.

Prepare

Non-toxic watercolor; damp sturdy paper; stable shallow water; brush

Offer the experience

1. Prepare a safe manageable painting setup.

2. Show brush care and offer one or two colors.

3. Let the child explore and decide when finished.

Adult role

The process matters; naming or producing a scene is optional.

Notice and revisit

Choices, movement and noticed changes. Next: Revisit the same setup or add a color if useful.

Safety and access

Check ingredients, mouthing and water risk. No paint tasting, hot water or unattended containers.

Use home languages, signs, visual cues, adapted movement/tools and sufficient processing time. Watching or another comfortable response is participation; do not force touch, speech, singing or performance.

Share one actual strength or preference and ask what the family notices at home. Any suggested home connection is optional and needs no purchase.

W049 • Wax-crayon lines and color

3 years · 36–47 months | Arts, music & handwork | Drawing

Purpose

Make expressive marks with comfortable control.

Prepare

Approved non-toxic large wax crayons; paper

Offer the experience

1. Show safe handling and restoration.

2. Offer large accessible movement space.

3. Invite original marks without requiring an outline to fill.

Adult role

Respect the child’s meaning and preferred grip/access.

Notice and revisit

Pressure, movement and chosen patterns. Next: Offer another paper size or adapted tool.

Safety and access

No heating wax or crayons. Check allergies, breakage and mouthing risks.

Use home languages, signs, visual cues, adapted movement/tools and sufficient processing time. Watching or another comfortable response is participation; do not force touch, speech, singing or performance.

Share one actual strength or preference and ask what the family notices at home. Any suggested home connection is optional and needs no purchase.

W050 • Care for one real plant

3 years · 36–47 months | Nature, seasons & community | Nature care

Purpose

Link noticing with appropriate care.

Prepare

Non-toxic plant; safe small watering container; reference care information

Offer the experience

1. Observe the actual plant.

2. Determine needed care with adult guidance.

3. Provide a manageable action and revisit changes.

Adult role

Do not water simply to create an activity when the plant does not need it.

Notice and revisit

Observation and a real care decision. Next: Draw or describe a visible change.

Safety and access

Check species, allergies and hygiene; no unknown plant/soil ingestion or hazardous tools.

Use home languages, signs, visual cues, adapted movement/tools and sufficient processing time. Watching or another comfortable response is participation; do not force touch, speech, singing or performance.

Share one actual strength or preference and ask what the family notices at home. Any suggested home connection is optional and needs no purchase.

W051 • Choose a useful weekly helper role

4 years · 48–59 months | Relationships & daily rhythm | Community rhythm

Purpose

Contribute to a familiar community rhythm without fixed social roles.

Prepare

Real safe classroom tasks; visual choices if useful

Offer the experience

1. Offer meaningful safe roles.

2. Let the child choose or decline a role.

3. Review whether the help actually served the group.

Adult role

No role assignments based on gender, language or ability.

Notice and revisit

Agency, purpose and needed support. Next: Adapt a role to improve access.

Safety and access

Adults retain health/safety duties; children do not handle cleaners, hazards or another child’s private care.

Use home languages, signs, visual cues, adapted movement/tools and sufficient processing time. Watching or another comfortable response is participation; do not force touch, speech, singing or performance.

Share one actual strength or preference and ask what the family notices at home. Any suggested home connection is optional and needs no purchase.

W052 • Create an inclusive movement verse

4 years · 48–59 months | Movement & sensory exploration | Movement and verse

Purpose

Connect language, imagination and self-chosen movement.

Prepare

Clear accessible space; a short original verse

Offer the experience

1. Offer a few story images.

2. Invite children to suggest safe movements or visual/sign roles.

3. Try a short sequence and change what excludes someone.

Adult role

Keep expressive choice instead of exact synchronization.

Notice and revisit

Participation and inclusive revisions. Next: Use a willing child’s idea next time.

Safety and access

No forced touch, exertion, performance or movement against individual plans.

Use home languages, signs, visual cues, adapted movement/tools and sufficient processing time. Watching or another comfortable response is participation; do not force touch, speech, singing or performance.

Share one actual strength or preference and ask what the family notices at home. Any suggested home connection is optional and needs no purchase.

W053 • Bread-day kneading with adult safeguards

4 years · 48–59 months | Practical life & purposeful work | Purposeful food work

Purpose

Join a useful food process through a reviewed manageable action.

Prepare

Program-approved dough; clean surface; trained adult

Offer the experience

1. Check permissions, allergy/mouthing needs and food procedures.

2. Offer a small supervised kneading or a nonfood preparation role.

3. Let the adult handle baking and review the useful result together.

Adult role

Imitation is an invitation; an alternative role belongs equally.

Notice and revisit

Sequence, hand action and support. Next: Repeat a comfortable role or measure an approved ingredient.

Safety and access

No raw dough/flour/egg tasting or dust play. Adults manage recipe, temperature, oven and all heat; follow food safety and allergy plans.

Use home languages, signs, visual cues, adapted movement/tools and sufficient processing time. Watching or another comfortable response is participation; do not force touch, speech, singing or performance.

Share one actual strength or preference and ask what the family notices at home. Any suggested home connection is optional and needs no purchase.

W054 • Sweep and restore a shared area

4 years · 48–59 months | Practical life & purposeful work | Purposeful work

Purpose

Care for a shared place through a complete sequence.

Prepare

Child-sized brush/pan; safe dry area

Offer the experience

1. Notice a real manageable need.

2. Demonstrate gathering and collecting.

3. Check the result and restore tools.

Adult role

Describe the real result without shaming mistakes.

Notice and revisit

Strategy, tool control and restoration. Next: Invite a child-chosen care task.

Safety and access

Adults handle hazardous, sharp, contaminated or chemical messes.

Use home languages, signs, visual cues, adapted movement/tools and sufficient processing time. Watching or another comfortable response is participation; do not force touch, speech, singing or performance.

Share one actual strength or preference and ask what the family notices at home. Any suggested home connection is optional and needs no purchase.

W055 • A tabletop story with child retelling

4 years · 48–59 months | Oral language, stories & verses | Story and puppetry

Purpose

Represent story meaning through chosen language and action.

Prepare

Original gentle story; large safe adult-reviewed props

Offer the experience

1. Tell a short story without testing.

2. Revisit it across days when wanted.

3. Invite children to retell, change or enact a part voluntarily.

Adult role

Use home-language vocabulary and accessible roles.

Notice and revisit

Sequence, meaning and child authorship. Next: Document a child’s invented ending with permission.

Safety and access

No small detachable props, candles, costume ties or frightening effects.

Use home languages, signs, visual cues, adapted movement/tools and sufficient processing time. Watching or another comfortable response is participation; do not force touch, speech, singing or performance.

Share one actual strength or preference and ask what the family notices at home. Any suggested home connection is optional and needs no purchase.

W056 • A useful message in imaginative play

4 years · 48–59 months | Oral language, stories & verses | Language and emerging literacy

Purpose

Connect rich oral language with meaningful print when useful.

Prepare

Paper; adapted drawing/writing tools; optional adult scribe

Offer the experience

1. Notice a real message the play needs.

2. Offer drawing, dictation, symbols or emerging spelling.

3. Read or communicate it back and check the intended meaning.

Adult role

Do not delay a useful literacy invitation because of a philosophical age rule.

Notice and revisit

Purpose, sound/symbol use where relevant and actual support. Next: Invite an audience response.

Safety and access

Respect the language/writing system and individual access; no required copying rows or public comparison.

Use home languages, signs, visual cues, adapted movement/tools and sufficient processing time. Watching or another comfortable response is participation; do not force touch, speech, singing or performance.

Share one actual strength or preference and ask what the family notices at home. Any suggested home connection is optional and needs no purchase.

W057 • A long-lived pretend setting

4 years · 48–59 months | Imagination, play & social connection | Imaginative peer play

Purpose

Sustain a child-owned setting and negotiate accessible roles.

Prepare

Open-ended large safe props; construction space

Offer the experience

1. Ask children what they are creating.

2. Support roles, boundaries and enough usable materials.

3. Keep the work available and allow revisions.

Adult role

Ensure consent and safety without directing the whole plot.

Notice and revisit

Collaboration, flexibility and story development. Next: Offer a useful tool only if the idea calls for it.

Safety and access

Adults stop exclusion or harm; avoid stereotypes and unsafe enclosures/cloth ties.

Use home languages, signs, visual cues, adapted movement/tools and sufficient processing time. Watching or another comfortable response is participation; do not force touch, speech, singing or performance.

Share one actual strength or preference and ask what the family notices at home. Any suggested home connection is optional and needs no purchase.

W058 • A color experience revisited

4 years · 48–59 months | Arts, music & handwork | Watercolor

Purpose

Notice and express changes through repeated art experience.

Prepare

Safe watercolor setup; damp paper; child-chosen safe colors

Offer the experience

1. Prepare and demonstrate safe care of materials.

2. Let children choose marks and observe color movement.

3. Revisit later without requiring matching paintings.

Adult role

No interpretation of color choice as personality or diagnosis.

Notice and revisit

Intentional choices and what the child notices. Next: Offer another medium or retain the favored one.

Safety and access

Use non-toxic materials and reviewed water access; no tasting or unsafe pigments.

Use home languages, signs, visual cues, adapted movement/tools and sufficient processing time. Watching or another comfortable response is participation; do not force touch, speech, singing or performance.

Share one actual strength or preference and ask what the family notices at home. Any suggested home connection is optional and needs no purchase.

W059 • Wind a short strand or weave paper

4 years · 48–59 months | Arts, music & handwork | Handwork

Purpose

Explore a repeated handwork action with a meaningful choice.

Prepare

Short adult-reviewed strand with large stable former, or wide paper strips

Offer the experience

1. Review the safe accessible setup.
2. Show one wrap or over/under action.
3. Allow a short sequence and restore materials.

Adult role

The child may choose the paper alternative or another fine-movement route.

Notice and revisit

Coordination, pattern and support. Next: Repeat or change the design at the child’s request.

Safety and access

Direct adult supervision of strands; no wearable loops, neck ties, long cords or loose access for younger children. Prefer paper when strand risk is unsuitable.

Use home languages, signs, visual cues, adapted movement/tools and sufficient processing time. Watching or another comfortable response is participation; do not force touch, speech, singing or performance.

Share one actual strength or preference and ask what the family notices at home. Any suggested home connection is optional and needs no purchase.

W060 • A local seasonal observation place

4 years · 48–59 months | Nature, seasons & community | Nature inquiry

Purpose

Notice real local change rather than a fixed seasonal script.

Prepare

Safe familiar outdoor place; drawing materials

Offer the experience

1. Revisit the same accessible place.

2. Record an actual feature through drawing, words or another form.

3. Compare records and keep uncertainty visible.

Adult role

A warm climate does not need an invented snowy winter theme.

Notice and revisit

Observation versus assumption and repeated interest. Next: Choose a real care action if useful.

Safety and access

Review outdoor conditions and plants/animals; no collecting unknown hazardous objects or disturbing wildlife.

Use home languages, signs, visual cues, adapted movement/tools and sufficient processing time. Watching or another comfortable response is participation; do not force touch, speech, singing or performance.

Share one actual strength or preference and ask what the family notices at home. Any suggested home connection is optional and needs no purchase.

W061 • Plan a rhythm that includes everyone

5- and 6-year-olds · 60–83 months | Relationships & daily rhythm | Community rhythm

Purpose

Participate in useful shared planning while adults retain care responsibility.

Prepare

Known daily sequence; child voices; accessible representations

Offer the experience

1. Discuss a manageable part of the day.
2. Hear different access and support needs.
3. Try a practical adjustment and review its effect.

Adult role

No child must earn food, rest, help or belonging by fitting a rhythm.

Notice and revisit

Perspective taking and the adjustment’s usefulness. Next: Revise one part after actual experience.

Safety and access

Required care and approved health/safety procedures remain adult duties.

Use home languages, signs, visual cues, adapted movement/tools and sufficient processing time. Watching or another comfortable response is participation; do not force touch, speech, singing or performance.

Share one actual strength or preference and ask what the family notices at home. Any suggested home connection is optional and needs no purchase.

W062 • A cooperative outdoor journey game

5- and 6-year-olds · 60–83 months | Movement & sensory exploration | Movement and imagination

Purpose

Coordinate movement and shared ideas without exclusion.

Prepare

Safe accessible route; optional story images

Offer the experience

1. Plan boundaries and accessible choices.

2. Invite children to create a short journey sequence.

3. Try and adapt the game so everyone can participate.

Adult role

Value varied movement and communication, not speed or elimination.

Notice and revisit

Planning, access and cooperative revisions. Next: Let a different child contribute a next route.

Safety and access

Follow weather/mobility plans; no risky heights, blindfolding or forced physical contact.

Use home languages, signs, visual cues, adapted movement/tools and sufficient processing time. Watching or another comfortable response is participation; do not force touch, speech, singing or performance.

Share one actual strength or preference and ask what the family notices at home. Any suggested home connection is optional and needs no purchase.

W063 • Measure for a real making task

5- and 6-year-olds · 60–83 months | Practical life & purposeful work | Practical mathematics

Purpose

Use number, comparison and measurement for a real purpose.

Prepare

Safe practical project; consistent large units or suitable blunt measuring tool

Offer the experience

1. Identify what must fit or be shared.

2. Model a needed measuring/counting strategy.

3. Apply the result and check whether it works.

Adult role

Teach the mathematical tool clearly when useful; play and practical work do not replace instruction.

Notice and revisit

Strategy, units, quantity meaning and checking. Next: Try a related manageable problem.

Safety and access

Adult reviews tools and materials; no sharp, hot or chemical processes outside an approved supervised setup.

Use home languages, signs, visual cues, adapted movement/tools and sufficient processing time. Watching or another comfortable response is participation; do not force touch, speech, singing or performance.

Share one actual strength or preference and ask what the family notices at home. Any suggested home connection is optional and needs no purchase.

W064 • Prepare and share approved food

5- and 6-year-olds · 60–83 months | Practical life & purposeful work | Purposeful work

Purpose

Carry out a useful preparation sequence with access and health safeguards.

Prepare

Approved ingredients/tools; handwashing access; trained adult

Offer the experience

1. Plan a safe role and review individual needs.
2. Model a selected preparation action.
3. Serve appropriately and restore the space together.

Adult role

Include nonfood roles and respect family practices.

Notice and revisit

Sequence, hygiene participation and needed support. Next: Revise one step for better access.

Safety and access

Adults manage heat, food safety, allergies, choking risks and dangerous tools. No raw tasting or compulsory participation.

Use home languages, signs, visual cues, adapted movement/tools and sufficient processing time. Watching or another comfortable response is participation; do not force touch, speech, singing or performance.

Share one actual strength or preference and ask what the family notices at home. Any suggested home connection is optional and needs no purchase.

W065 • An original story becomes a child’s book

5- and 6-year-olds · 60–83 months | Oral language, stories & verses | Storytelling and writing

Purpose

Communicate an authored story through an accessible form.

Prepare

Child ideas; paper; writing/drawing tools; optional scribe/AAC

Offer the experience

1. Invite a child-chosen event or imagined story.

2. Support a beginning/change/ending without taking over.

3. Record, reread and revise to match the child’s intended meaning.

Adult role

Oral tradition and purposeful literacy can support one another.

Notice and revisit

Authorship, sequence, language and support. Next: Offer a real willing audience.

Safety and access

Protect privacy and cultural ownership; do not force disclosure or interpret a story as a diagnosis.

Use home languages, signs, visual cues, adapted movement/tools and sufficient processing time. Watching or another comfortable response is participation; do not force touch, speech, singing or performance.

Share one actual strength or preference and ask what the family notices at home. Any suggested home connection is optional and needs no purchase.

W066 • Read a meaningful play message

5- and 6-year-olds · 60–83 months | Oral language, stories & verses | Purposeful literacy

Purpose

Use suitable explicit reading support in a real context.

Prepare

Checked text with taught sound-spelling patterns; adult support

Offer the experience

1. Confirm the text is accessible through known/taught patterns.

2. Model or support decoding rather than picture guessing.

3. Read the message and discuss what it means for the play.

Adult role

Coordinate with the child’s school and individual plan; do not delay needed instruction until age seven or tooth changes.

Notice and revisit

Decoding, meaning and adult support separately. Next: Revisit a suitable pattern in another meaningful text.

Safety and access

Respect language and disability access. No timed ranking or exclusion from support based on philosophy.

Use home languages, signs, visual cues, adapted movement/tools and sufficient processing time. Watching or another comfortable response is participation; do not force touch, speech, singing or performance.

Share one actual strength or preference and ask what the family notices at home. Any suggested home connection is optional and needs no purchase.

W067 • Build a shared imaginative project

5- and 6-year-olds · 60–83 months | Imagination, play & social connection | Imaginative project play

Purpose

Develop a collaborative idea with real child agency.

Prepare

Safe construction and pretend materials; work-in-progress area

Offer the experience

1. Hear each willing participant’s idea.

2. Support accessible roles and safe construction.

3. Revisit and revise based on the children’s purposes.

Adult role

Let children change direction; protect consent and boundaries.

Notice and revisit

Planning, social support and revision. Next: Document the child’s explanation if desired.

Safety and access

Avoid unstable overhead structures, entrapment and exclusion; adults stop harm.

Use home languages, signs, visual cues, adapted movement/tools and sufficient processing time. Watching or another comfortable response is participation; do not force touch, speech, singing or performance.

Share one actual strength or preference and ask what the family notices at home. Any suggested home connection is optional and needs no purchase.

W068 • Create and revise an expressive work

5- and 6-year-olds · 60–83 months | Arts, music & handwork | Arts

Purpose

Sustain an original expression across time.

Prepare

Safe chosen art media; storage for work in progress

Offer the experience

1. Invite a child-chosen purpose.

2. Offer safe technique support without supplying a required model.

3. Let the child decide what to revise and whether to share.

Adult role

No art product proves readiness, temperament or intelligence.

Notice and revisit

Intent, material choices and change over time. Next: Explore another medium if wanted.

Safety and access

Use non-toxic accessible materials; no heated wax, solvents, dusty pigments or unsafe tools.

Use home languages, signs, visual cues, adapted movement/tools and sufficient processing time. Watching or another comfortable response is participation; do not force touch, speech, singing or performance.

Share one actual strength or preference and ask what the family notices at home. Any suggested home connection is optional and needs no purchase.

W069 • Simple paper weaving or short-strand braiding

5- and 6-year-olds · 60–83 months | Arts, music & handwork | Handwork

Purpose

Explore a repeated handwork relationship and chosen pattern.

Prepare

Wide paper strips or short reviewed strands; safe support surface

Offer the experience

1. Show one over/under or crossing action.

2. Support a short chosen sequence.

3. Check the pattern and restore all materials.

Adult role

Handwork is an invitation, not a readiness test for school.

Notice and revisit

Sequence, coordination, preference and help seeking. Next: Use the result in a child-chosen project.

Safety and access

Direct adult supervision of strands; no wearable loops, neck ties or long cords. No sharp needles; choose paper/adapted tools when safer.

Use home languages, signs, visual cues, adapted movement/tools and sufficient processing time. Watching or another comfortable response is participation; do not force touch, speech, singing or performance.

Share one actual strength or preference and ask what the family notices at home. Any suggested home connection is optional and needs no purchase.

W070 • A real place to care for and describe

5- and 6-year-olds · 60–83 months | Nature, seasons & community | Nature and community

Purpose

Connect observation, practical care and community responsibility.

Prepare

Safe local outdoor space; appropriate child-safe care tools; reliable reference

Offer the experience

1. Observe a real need and hear children’s ideas.

2. Verify a safe useful response with adult guidance.

3. Carry it out and record what actually changed.

Adult role

Respect living things and distinguish evidence from story imagination.

Notice and revisit

Observation, purpose and whether the care helped. Next: Share a factual finding through drawing, writing or another accessible form.

Safety and access

No pesticides, sharp pruning, unknown fungi/plants, animal waste or wildlife disturbance. Follow local outdoor and hygiene procedures.

Use home languages, signs, visual cues, adapted movement/tools and sufficient processing time. Watching or another comfortable response is participation; do not force touch, speech, singing or performance.

Share one actual strength or preference and ask what the family notices at home. Any suggested home connection is optional and needs no purchase.
